

This comment is concerning the proposal for LPFM stations to take priority over stations that broadcast via a translator. My entire family and I are regular listeners to K-LOVE. It is the only Christian music radio station available in our area. It is nice to have a radio station that I do not have to be concerned about the decency of what is being broadcast. If K-LOVE were lost from this area we would no longer be able to listen to a good clean radio station that offers upbeat Christian music. I believe K-LOVE serves the public interest through the positive encouraging message that they broadcast daily. It would be a HUGE loss to have K-LOVE available in our area. They also provide announcements for local non profit organizations who are helping the community.

One other comment, I travel a lot and I know that most places I can still find the clean positive encouragement of K-LOVE no matter where I am.

Please do not let K-LOVE be knock off the air by just another station.
